(54) OFFICE EQUIPMENT CONTROL SYSTEM

(57)Abstract:

PURPOSE: To enable a single department to keep abreast of use conditions of a multiple number of office equipment intensively and individually and execute inventory control.

CONSTITUTION: In a multiple number of office equipment, copiers A connected to a computer B for example, in the case of consumables such as paper, paper sizes and numbers of sheets are grasped by a counter 12 every time copying is made, output from the counter 12 is stored in a storage 14. The computer B has an operation section 22 which stores a variety of files including standard stocks of consumables, compares the standard stocks with current counts and decides whether stocks have reached a reordering point or not. The result of operation is shown on a display 23 and also can be printed on an input/output section 21.

LEGAL STATUS

[Date of request for examination]

12.01.1995

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

2869428

[Date of registration]

08.01.1999

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
